

# T8

# R E T R O F I T

save 40% or more in energy use

# EASY

TCP offers complete energy saving solutions for facilities looking to upgrade their T12 linear fixtures to use efficient T8 lamps.

Upgrade kits include everything needed:

- mounting hardware
- lampholders
- reflectors
- ballasts and lamps

Top quality brackets and reflectors mean **easy installation** and the **highest light output** possible. Single-source kits mean all components are designed to work together.

Hardware kits come prepackaged in single-fixture bags, with ballasts and lamps pre-wired, saving valuable installation time and money.

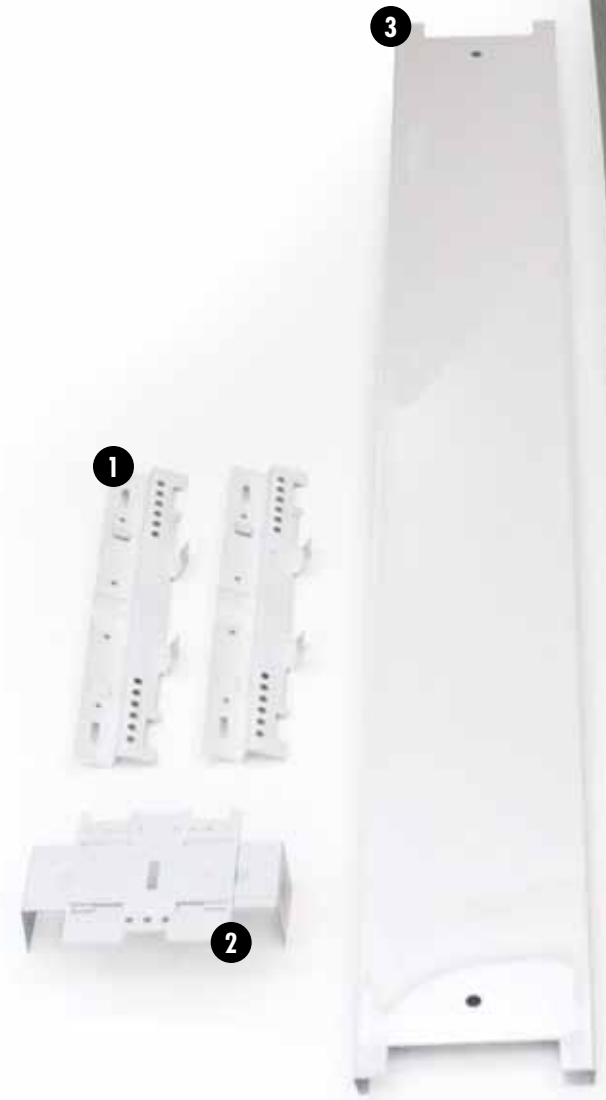

# COMPLETE SOLUTIONS

TCP offers complete product support. We supply all components (including lamps and ballasts), and stand behind everything:

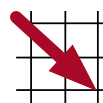

**One phone number, one company, one warranty.**

Our T8 retrofit kits will save you time and money.

- Utility rebate friendly
- Pre-wired ballasts and lampholders
- Significantly reduced maintenance costs
- Significantly reduced energy usage
- Reflectors meet UL classified ballast covers requirements
- Adjustable brackets fit different channel widths
- Aluminum components mean no rust

LOWER ENERGY USE

- 1 Lampholder brackets for troffers are white-painted aluminum for long life
- 2 Adjustable "Clip Strip" adjusts to any channel size between 4" and 5.25"

*TCP pre-wires  
and individually wraps  
the ballast, lampholders and  
quick disconnect for  
faster installation!*

**3** Ballast covers fit up to a 5.25" channel, and is white-painted aluminum for long life

**4** Miro4 aluminum reflectors for strips or troffers (Troffer reflectors also available in white)

**5** Ballasts, lampholders and quick disconnects are pre-wired and shrink-wrapped for a simplified installation process

# THE KITS

**CLR14S:**  
Retrofit Kit for 4' strip with one lamp,  
includes ballast cover  
(Without ballast cover, order CLR14X)  
(Without cover or lamp, order CLR14B)

**CLR24S:**  
Retrofit Kit for 4' strip with two lamps  
includes ballast cover  
(Without ballast cover, order CLR24X)  
(Without cover or lamps, order CLR24B)

**CLR24R:**  
Retrofit Kit for 4' strip with two lamps  
includes reflector

**CLR48S:**  
Retrofit Kit for 8' strip with four lamps  
(as a finished result) includes ballast covers  
(Without ballast cover, order CLR48X)  
(Without cover or lamps, order CLR48B)

**CLR48R:**  
Retrofit Kit for 8' strip with four lamps  
(as a finished result) includes reflectors

**CTR22R:**  
Retrofit Kit for 2x2 troffer with two F17T8 lamps  
(as a finished result), includes Miro4 reflector  
(For white reflector, order CTR22WR)

**CTR24R:**  
Retrofit Kit for 2x4 troffer with two lamps  
(as a finished result), includes Miro4 reflector  
(For white reflector, order CTR24WR)

**\*All Kits include:**

- Any required TEK screws
- Any required ¼ turn clips
- Lamp Holder Brackets
- Lamp Holders
- Quick Disconnect
- Ballast (Pre-wired to lamp holders and quick disconnect)
- F32T8/835 lamps
- Ballast Covers and Reflectors

\*unless otherwise indicated
